

A SUPPORTIVE AGRICULTURAL POLICY ENVIRONMENT

Belarus maintains a broad policy framework supporting agricultural productivity, modernization, food security and export competitiveness.

INVESTMENT MODERNIZATION

National agricultural programmes provide mechanisms through which qualifying investment projects may seek support for modernization and capital development.

FINANCING SUPPORT

Qualifying projects may access mechanisms intended to reduce the financing cost of eligible agricultural investment.

MILK PRODUCTION SUPPORT

Belarus maintains support instruments linked to eligible agricultural production, including milk supplied for processing.

BREEDING & PRODUCTIVITY

State support mechanisms also extend to breeding development, genetic improvement and livestock-productivity programmes.
